Genre Analysis Technologies

1. Pen – To write on paper, feels nicer than pencils, helped me write my thoughts faster than typing.
2. Paper – Cannot use laptop in class and is faster to write on paper than a laptop.
3. Laptop – Allows to make professional looking documents and print them
4. LibreOffice Writer – Free (and better) alternative to MS Word
5. DuckDuckGo – Allowed to view assignment resources, is less invasive engine compared to Google
6. GitHub – Allowed to create a website more easily with more control for free compared to alternatives

AI usage: none. I am capable of writing my own papers and know how to research using a search engine.
